A CARBON EMISSIONS REPORTING TOOL TO SIMPLIFY DATA COLLECTION AND OPTIMISE PERFORMANCE MANAGEMENT

Measure | Analyse | Reduce | Offset
with CarbonView

Measure your Carbon Footprint

An increasing number of businesses decide to report on their energy and carbon usage as part of good **corporate governance**. One of the key indicator of your organization's efforts towards being a more sustainable organisation is your annual **Greenhouse Gas (GHG) emissions report**. CarbonView enables you to report on electricity, gas, transport fuel – as well as the associated GHG emissions. Designed for all types of businesses – small businesses to large international corporations – CarbonView is your **all-in-one sustainable solution.**

CarbonView™
SUSTAINABILITY SOLUTIONS

☑ **CAPTURE CARBON DATA EFFICIENTLY**

Integrate with existing systems to measure carbon emissions in accordance with global standards.

☑ **REPORT & DISCLOSE CARBON EMISSIONS**

Meet government regulations by generating dynamic and interactive reports.

☑ **MANAGE PERFORMANCE**

Track energy efficiency projects and carbon reduction against targets.

Real-World Fuel and Energy Savings

Mitigate Risks & Reduce Cost
Gain insights on how to mitigate greenhouse gas emissions and reduce unnecessary costs.

Social Responsibility
Consumers are hungry for information on corporate social responsibility (CSR) practices, and many will pay more to companies that provide it.

WE'D LOVE TO HEAR FROM YOU
